Brennan Healing Science® is an enlightening system of energy work that combines hands-on healing techniques with spiritual and psychological processes...touching every aspect of your life.

Based on the living dynamics of our human energy consciousness system and its relationship to the greater world of which we all are intimately a part, Brennan Healing Science can help transform your life into the balanced, enlightening experience of mystery that you've always wanted it to be.

This workshop is designed to give you a thorough and experiential introduction to the transformative work of Brennan Healing Science. It will be taught by Nijole Ladd, certified Fundamentals of Brennan Healing Science (FBHS) workshop leader and former Barbara Brennan School of Healing (BBSH) faculty member.

The format of the workshop will include lectures, healing demonstrations, guided exercises and meditations, hands-on healing techniques, practice healings and self-healing exercises. By joining us, you will be introduced to your ability to give hands-on healing to others, as well as starting to open your latent ability to perceive the human energy field. This is a rare opportunity to step into an expanded view of life, where we see that we are more than just our physical bodies.

*We are beings of energy and consciousness!*

These teachings on human energy and consciousness, health, healing and self-awareness are at the cutting edge of human development.

Come experience this weekend and return to your life renewed, open-hearted and transformed!
